

Oracle Utilities Learning Subscription

Oracle Utilities delivers greater time to value for electric, water and gas utilities with mission-critical solutions that increase customer satisfaction and operational efficiency. Accelerate adoption and stay current on your Oracle Utilities solution with an Oracle Utilities Learning Subscription.

Oracle Utilities - Learning Simplified

Learn all about your Oracle Utilities solutions, including an in-depth look at the product architecture, core components, key functionality, user interface system-wide standards, business processes, and implementation considerations for your applications.

This subscription is ideal for:

- ✓ Implementation Team Members
 - ◆ Architects
 - ◆ Administrators
 - ◆ Developers
 - ◆ Functional Configurators
 - ◆ Integrators
 - ◆ Business Analysts
 - ◆ Technical Consultants
- ✓ Report and Dashboard Specialists

Learn how to:

- ✓ Get started using your Oracle Utilities solution
- ✓ Configure the applications to address specific business requirements
- ✓ Change and maintain the front-end and back-end configurations of your applications
- ✓ Implement solutions on mobile devices
- ✓ Use the Oracle Utilities Application Framework to extend Oracle Utilities products
- ✓ Transform your business by using Smart Grid Gateway as a single point of connection between smart grid applications and devices
- ✓ Effectively operate the Network Management System applications to view the status of the distribution network and take corrective or proactive actions
- ✓ Create and generate reports using Oracle Utilities Analytics

Training For Your Team Has Never Been Easier

Take advantage of the Oracle Utilities Learning Subscription for your entire organization and provide the individuals on your team with the training they need to become skilled in their area of expertise. Contact your Oracle Utilities or Oracle University Sales Representative to learn more about this innovative learning solution.
