Complementing JD Edwards with Oracle SaaS solutions

Partner Name:

Partner website:

Location:

Contact Person:

Title:

Email:

Oracle has the most complete SaaS offering available in the market today. JD Edwards customers have an opportunity to complement their JD Edwards footprint with feature-rich Oracle SaaS solutions. In this category, a partner is nominated for supporting customers that recognize the best hybrid opportunities and provide guidance on how to achieve high-value JDE and Oracle SAAS hybrid solutions that solve their business problems.

Requested information: For each hybrid JDE + SAAS implementation please Include a brief description of the project, customer name, their industry and where they have implemented. Add details on number of JDE users, JDE version and product footprint, what are the Oracle SAAS applications you have implemented and the benefits customer is realizing. For SaaS apps integrated with JDE please indicate the process flow and what technologies are used to support the integration (IAS, JDE Orchestrations, BSSV, Batch file import/export, etc.). Please provide additional information on your marketing/promotion efforts around JDE & SaaS co-existence (published story, custom success story, etc.) and if you have worked with other Oracle SAAS partner in the implementation

You can enter up to 10 examples in this document for this category. If you need addition pages, start a new form.

Customer - 1

Customer Name:		Annual Revenue:	
		Release:	
		Industry:	
		Country:	
		Number of JDE users:	
		Where SAAS is used:	
Description of Customer (what their business is):			
JD Edwards footprint :			
What are the SAAS applications implemented:			
For each application specify benefits realized by the customer:			
For SaaS apps integrated with JDE please indicate the process flow :			
For SaaS apps integrated with JDE please indicate what technologies are used to support the integration (IAS, JDE Orchestrations, BssV, Batch file import/export, etc.)			
Marketing/promotion efforts around JDE & SaaS co-existence (published story, custom success story, etc.)			
If you have worked with other Oracle SAAS partner in the implementation please indicate their names			
Other information:			

Customer - 2

Customer Name:		Annual Revenue:	
		Release:	
		Industry:	
		Country:	
		Number of JDE users:	
		Where SAAS is used:	
Description of Customer (what their business is):			
JD Edwards footprint :			
What are the SAAS applications implemented:			
For each application specify benefits realized by the customer:			
For SaaS apps integrated with JDE please indicate the process flow :			
For SaaS apps integrated with JDE please indicate what technologies are used to support the integration (IAS, JDE Orchestrations, BssV, Batch file import/export, etc.)			
Marketing/promotion efforts around JDE & SaaS co-existence (published story, custom success story, etc.)			
If you have worked with other Oracle SAAS partner in the implementation please indicate their names			
Other information:			

Customer - 3

Customer Name:		Annual Revenue:	
		Release:	
		Industry:	
		Country:	
		Number of JDE users:	
		Where SAAS is used:	
Description of Customer (what their business is):			
JD Edwards footprint :			
What are the SAAS applications implemented:			
For each application specify benefits realized by the customer:			
For SaaS apps integrated with JDE please indicate the process flow :			
For SaaS apps integrated with JDE please indicate what technologies are used to support the integration (IAS, JDE Orchestrations, BssV, Batch file import/export, etc.)			
Marketing/promotion efforts around JDE & SaaS co-existence (published story, custom success story, etc.)			
If you have worked with other Oracle SAAS partner in the implementation please indicate their names			
Other information:			

Customer – 4

Customer Name:		Annual Revenue:	
		Release:	
		Industry:	
		Country:	
		Number of JDE users:	
		Where SAAS is used:	
Description of Customer (what their business is):			
JD Edwards footprint :			
What are the SAAS applications implemented:			
For each application specify benefits realized by the customer:
