Industry Transformational Experience

Partners are invited to participate in a live demo contest during the 2017 JD Edwards Summit. Qualified partners will have the opportunity to deliver a 20 minute demo to impress the judges with their Industry Transformational expertise. We ask that you identify 1 industry from our four core JD Edwards Industries: *Manufacturing & Distribution, Asset Intensive, Consumer Packaged Goods, and Projects Based Industries* that showcases the transformational experience our customers embrace. Partners will need to demonstrate their industry knowledge in support of the latest Oracle JD Edwards technologies including third party technology such as (but are not limited to): IoT Orchestrator, UX One, Watch Lists, Cloud, Virtual Assistant, Proximity based technology, Robust Dashboards, Current Code Release and/or Mobility deployments.

Share your industry expertise with Oracle and differentiate from the competition!
Nominate your team today!

How will the finalists be selected?

Partners sign up for the contest and the JD Edwards teams will identify what partners proceed to the demo phase. As part of the initial review phase, the JD Edwards team will review the submission form, partner's website, customer success stories, and any industry transformation marketing that you are supporting. The website should have comprehensive information regarding your JD Edwards practice with Industry experience being a central theme. We will also take into account the technical demonstration along with how will the content is presented.

Demos

Partners will need to provide their own 9.2 demo environments. Demos will be delivered in person during the Summit. We will provide a room with projector and WIFI. Partners must bring anything else they need for the demo. Convince us you are an Industry expert of the latest technologies and JD Edwards! You will only have 20 minutes (and no more) to complete the demo. Demos will be delivered to a panel of judges exclusively comprised of Oracle people.

When and Where

Demo's will be given by the selected Partners at the Bromfield campus. Date, Time and Room TBD. The JD Edwards team will notify you if you have been selected for the live demo.

Judges

JD Edwards experts from different Oracle teams will make-up the judge panel.

Awards

The winning partner will be presented with a JD Edwards Summit award, along with co-presenting with Oracle your contest winning demonstration at Quest 2017 InFocus. In addition, Oracle JD Edwards will socialize the results and the partner will obtain valuable feedback from the judges that can help you in future sales cycles and opportunities.
